The Medical University of South Carolina College of Pharmacy’s Early Assurance Program is a competitive admission program designed for exceptional high school seniors with a desire to pursue a health care career in pharmacy in as few as six years.
Founded in 1881, the pharmacy program at MUSC has a rich history of contribution as a leader in pharmacy education and practice, research and discovery, and community stewardship.

The MUSC College of Pharmacy provides a premier pharmacy education by uniting nationally-recognized faculty and high-achieving students with the innovative interprofessional learning opportunities offered at the states only academic medical center; we are committed to recruit the kind of people with the intellectual curiosity and passionate drive to develop and shape the future of health care.

This commitment is the impetus for the creation of the College’s new Early Assurance Program.

The MUSC College of Pharmacy’s Early Assurance Program is a competitive admission program designed for exceptional high school seniors with a desire to pursue a health care career in pharmacy in as few as six years.

Candidates of the Early Assurance Program, who meet the admission requirements, earn conditional acceptance to the MUSC Doctor of Pharmacy (PharmD) program after the successful completion of college-level prerequisite courses at any accredited college or university, and maintenance of certain academic criteria.

As one of the only College of Pharmacy Early Assurance Programs located on an academic medical center, the program is a unique and innovative opportunity for high school graduates to earn doctorate level education in as few as six years and, as a result, accelerate education, reduce cumulative debt, and jumpstart success in their healthcare career.
Frequently Asked Questions

Who should apply?
High School Seniors with a passion for pursuing a health care career in pharmacy are encouraged to apply; students must meet the following requirements for consideration to Medical University of South Carolina College of Pharmacy’s Early Assurance Program:
• Have a 3.2 or higher unweighted GPA at the end of the fall semester of their senior year

THE MEDICAL UNIVERSITY OF SOUTH CAROLINA

Founded in 1824 in Charleston, The Medical University of South Carolina is the oldest medical school in the South. Today, MUSC continues the tradition of excellence in education, research, and patient care. MUSC educates and trains more than 3,000 students and residents, and has nearly 13,000 employees, including approximately 1,500 faculty members. As the largest non-federal employer in Charleston, the university and its affiliates have collective annual budgets in excess of $2.2 billion. MUSC operates a 750-bed medical center, which includes a nationally recognized Children’s Hospital, the Ashley River Tower (cardiovascular, digestive disease, and surgical oncology), Hollings Cancer Center (one of 68 National Cancer Institute designated centers), Level I Trauma Center and Institute of Psychiatry.
